

**10/15/2007: Prominent US Life Insurer Implements Aquilan's  
Patriot Manager™ Anti-Money Laundering Solution  
*Solution Implemented to Automate Company's AML Program***

**AUSTIN, TX – October 15, 2007** – Aquilan, a leading provider of anti-money laundering compliance and fraud solutions, today announced a prominent US life and annuity insurance company successfully went into production with its anti-money laundering solution, Patriot Manager, on schedule and on budget.

By going live with data from three systems feeding Patriot Manager - PolicyLink, a client management system, and the enterprise agent system - the company successfully concluded the first phase of their project. Patriot Manager now provides the only client data warehouse spanning the company's life and annuity divisions, providing an enterprise view of clients, agents, brokers, products, and contracts. Following implementation, Patriot Manager began automatically generating alerts when suspicious activities or patterns of events occur and when a client's behavior exceeds normal limits. Additionally, Patriot Manager is being used to automatically assess the risk presented by each client, enabling the compliance staff to apply the appropriate level of due diligence in each situation.

This initial implementation brings Patriot Manager into production with 250,000 policies, 4,000,000 clients, and 206,000 agents. When the project is completed, Patriot Manager will monitor transactions, clients and agents from eleven life and annuity administration systems, client systems, and the enterprise agency system, including 2,400,000 contracts,

"We are very pleased that this leading-edge company relies on Patriot Manager to combat money laundering and terrorist financing," said Cliff Hagler, Aquilan's CEO. "We look forward to bringing the remainder of their life and annuity systems online, protecting the company's excellent reputation and automating their leading-edge anti-money laundering program."

**About Aquilan**

Aquilan provides Anti-Money Laundering Solutions to many of the nation's leading insurance companies. The only compliance and risk solution geared specifically to the insurance industry, Aquilan's Patriot Manger™ ensures the highest level of compliance protection, connecting disparate data to monitor, detect, track, manage and report suspicious activities. Automated and easy to use, Patriot Manager is a comprehensive solution that takes the risk out of compliance management.
