

**03/08/2008: Leading US Life Insurer Implements Aquilan's  
Patriot Manager™ AML Solution for Life and Annuities  
*Solution Brings Immediate Benefit to Company's AML Program***

**AUSTIN, TX – March 8, 2008** – Aquilan, a leading provider of anti-money laundering compliance and fraud solutions, today announced that a large, international US multiline insurance company successfully went into production with its anti-money laundering solution, Patriot Manager, on schedule and under budget.

With the successful conclusion of this project phase, the company's the higher-risk products from the Annuity and Life Divisions – as well as the agents - are monitored by Patriot Manager for money laundering and terrorist financing. The first two administration systems, Vantage and Navisys, contained about 261,000 Universal Life and Annuity policies.

As one of the systems is a client server system and the agency system and second administration system are mainframe, the company has now established their procedures for bringing the rest of their numerous life, annuity, and agency systems into Patriot Manager. The second project phase implements three additional systems: Cyberlife, Life-COMM, and another agent/agency system.

Patriot Manager provides the only client data warehouse spanning the company's life and annuity divisions, providing an enterprise view of clients, agents, brokers, products, and contracts, and assessing the risk presented by each client.

"We are very pleased to welcome this major insurance provider to the family of companies relying on Patriot Manager to cost-effectively implement their AML policies," said Cliff Hagler, Aquilan's CEO. "We congratulate the company's AML and IT teams on their success and look forward to bringing the rest of their administration systems into Patriot Manager."

**About Aquilan**

Aquilan provides Anti-Money Laundering Solutions to many of the nation's leading insurance companies. The only compliance and risk solution geared specifically to the insurance industry, Aquilan's Patriot Manger™ ensures the highest level of compliance protection, connecting disparate data to monitor, detect, track, manage and report suspicious activities. Automated and easy to use, Patriot Manager is a comprehensive solution that takes the risk out of compliance management.
